lionrhart@gmail.com · **LinkedIn Profile** · **Portfolio**

Innovative Full-stack Developer with robust problem-solving skills and a keen eye for user experience design. Renowned for swiftly mastering new technologies and delivering impactful digital solutions. Proven track record of enhancing user engagement and optimizing web functionalities – both frontend and backend, ultimately driving greater profits and customer satisfaction for the company.

EXPERIENCE

APRIL 2022 – CURRENT
FULL STACK DEVELOPER, SIMPLE DEVELOPMENT SOLUTIONS, LLC (REMOTE)

- Frontend and backend duties – from UX design to encryption, Paypal/Stripe integration, developing server-side logic using frameworks such as Node.js and Express, or plain PHP/SQL, depending on the needs of the application.
- Develop and maintain responsive web applications using PHP, Laravel, React, NextJS, Node.js, Express, SQL as well as NoSQL Databases, or using CMS's, depending on the project, optimizing performance and ensuring security best practices.

NOVEMBER 2020 – AUGUST 2023
FRONT-END DEVELOPER, COSTCO

- Develop and maintain responsive, user-friendly web interfaces using HTML, CSS, JavaScript, and front-end frameworks (React and JQuery), ensuring cross-browser compatibility and collaborating with UI/UX designers to enhance user experience

SEPTEMBER 2019 – APRIL 2022
WEB DEVELOPMENT INSTRUCTOR & TUTOR (REMOTE)

- Educate students in web development, focusing on best practices and modern technologies, significantly improving their coding proficiency and job readiness.
- Curate comprehensive learning materials that enhance students' understanding of complex programming and web development concepts.
